

Case Sheet NO: ----- Date:-----

Name of Practitioner:-----

OCI Registration No: -----

0.2pts

Briefly describe in one or two sentences why you chose to present this case as a case-report: **0.2pts**

In one or two sentences, describe the patient profile including such as age, gender and symptoms. **0.6pts**

What were the clinical findings? Please mention any abnormal findings in visual acuity, ocular motor exam results and abnormal slit lamp and fundus findings (if any). Were there any specific tests to ascertain the findings (for example ERG for suspected RP, perimeter for glaucoma, colour vision testing for suspected optic nerve diseases).1

1.0pts

Was the condition managed according to conventional methods? If yes, please mention yes. If not, please describe how the management was different from previous methods.

1.0pts

Please provide between 3 and 5 references from the literature similar to the case you described. 1.0pts
